Gebo Gold – threaded fittings made of brass; series BH and BR

Our product group Gebo Gold are threaded fittings made of brass with copper alloys according to DIN EN 12164 respectively DIN EN 12165 in compliance with the 4MSI Common Composition list for metallic materials used for products in contact with drinking water.

The product group Gebo Gold offers three different series:

- Gebo Gold HEAVY (BH) with threads according to DIN EN 10226-1 (ISO 7/1)
- Gebo Gold REGULAR (BR) – with threads accordingly to ISO 228. The male threads are with knurling up to size 1 ½”.
- and the third series, which is NOT for application drinking water:
Gebo Gold CHROME (BC) – threaded brass fittings chrome plated with threads accordingly to ISO 228. The male threads are with knurling up to size 1 ½”.

The application for all series Gebo Gold is for water pipelines.
